

Lieu-dit
La Croix Joly
TROISSY

The Vineyard

Old-vines of Meunier planted on a gentle north-eastern slope in Troissy. Leached clay soil (very little sandstone remaining). Very small yields.

The Wine

The wines are fully aged on the lees, in 200L, 300L and 500L barrels and clarified by natural settling, without filtration or fining.

Production of around 1000 bottles of 75cl.
Dosage : 0g-2g

The bottling date and Disgorgement dates are printed on our back labels.

The Service

Serve in a big white wine glass at 10°C minimum.
Decanting is possible.

Perpetual Reserve

Each Harvest is different and has an impact on the quality and style of the wines. To avoid this vintage effect, we have developed a Perpetual Reserve for each of our single vineyard wine, since 2013.

Each plot's Reserve has gained balance over the time, with a distinctive renewal proportion. It may vary from 50 to 30% depending on the parcel.

The proportion for La Croix Joly is of 50%.
